MEMORANDUM FOR: The Honorable William J. Casey
Chairman, Senior Interagency Group-Intelligence

FROM: General Richard G. Stilwell, USA (Ret.)
Chairman, Interagency Group/Countermeasures

SUBJECT: NSDD-84 Personnel Security Review

1. Attached is a personnel security issues paper which is commended for SIG-I deliberation prior to its being forwarded to the NSC. The attached document has been reviewed by the IG/CM and is forwarded with that Group's full concurrence with the paper's content and recommendations. I request that action on the paper be made an early agenda item of the SIG-I.

2. National Security Decision Directive 84 (NSDD-84), in part, directed the Attorney General, in consultation with the Director, Office of Personnel Management (OPM), to study the Federal personnel security program and recommend appropriate revisions to official guidance. Accordingly, the Attorney General established a Personnel Security Review Group. The group has identified, in the options paper, several fundamental issues which require SIG-I/NSC policy guidance before the review may proceed.

3. Since NSDD-84 was issued out of the NSC, the issues paper requesting clarification of policy intent is being routed back through the NSC system. Nevertheless, many of the recommended issue decisions cut across portions of the personnel security spectrum of direct interest to OPM. I recommend, therefore, that the Director, OPM, be afforded the opportunity to participate in SIG-I level deliberations on this issue.
